SUMMARY

Frontend developer of web applications, I have knowledge of layout (HTML5, CSS3), also JavaScript, React, Redux toolkit library. Successfully implemented several team projects. I want to learn new things, work and improve my knowledge and skills. I quickly learn new skills, ready for challenges and difficult tasks. I always complete projects on time, I focus on convenience for the user.

PROJECT EXPERIENCE

- **Watch shop** ([Git](#)) (HTML5, CSS3, JavaScript). A website with a responsive layout. Team project. Role: front-end developer, section "Sale".
